COLLECTION

ABOUT COLLECTION

Handmade Collection is a luxury collection of hand-made carpets created with people valuing original design and high-class materials in mind. Carpets from this collection are being hand-made in India, and – as a result – they have an exceptional character. They stand out thanks to the high-quality possible thanks to the use of high-quality wool from New Zealand, viscose fibre, bamboo viscose and noble tencel. This is a perfect solution for those who look for unusual ideas for their interiors. Our carpets from this collection will perfectly match modern, minimalistic apartments and natural Scandinavian interiors.

ART DECO
COLLECTION

ABOUT COLLECTION

Art Deco Collection – an unusual carpet collection being the result of cooperation between Carpet Decor and AlmiDecor. The Art Deco, a style that was born in the early 20th century, served as an inspiration for this collection. Geometrical, elegant and contrasting carpet patterns will look wonderfully also in modern interiors of the 21st century. Black combined with gold, beige and white is a timeless colour pair that gives elegance and refinement to any arrangement. The carpets from Art Deco collection include the easy cleaning technology – Magic Home. Thanks to it, they are extremely easy to maintain.

STONE
COLLECTION
BY
MACIEJ ZIEŃ

ABOUT COLLECTION

Stone Collection by Maciej Zień was created in the spirit of nature, and it is the stone that played the main role. The carpet patterns reflect the beauty of various rocks and the achieved natural effect was possible thanks to mixing extremely soft viscose threads and chenille threads, alluding to the colours of the earth. In the collection our customers may find patterns inspired by gemstones that bring to mind elegance and timelessness. "Stone" collection comprises two lines of carpets – ones that are easy to clean and hand-made ones, thus combining unique design and functionality.

MAGIC HOME
COLLECTION

ABOUT COLLECTION

Magic Home carpet collection is about combining the most popular design with exceptional comfort of use. The collection can boast about original and distinctive patterns that wonderfully match modern interior arrangements. It is a great solution for those, who – apart from aesthetics – value outstanding functionality. Magic Home carpets have exceptional functionalities such as anti-slip underlay or the fact that they can be washed in a washing machine. As a result, using our carpets is comfortable and practical. Soft to the touch, available in wide range of colours and sizes – choose a model that will perfectly match your interior.

MAGIC HOME
UNIQUE
COLLECTION

ABOUT COLLECTION

Art Deco Collection – an unusual carpet collection being the result of cooperation between Carpet Decor and AlmiDecor. The Art Deco, a style that was born in the early 20th century, served as an inspiration for this collection. Geometrical, elegant and contrasting carpet patterns will look wonderfully also in modern interiors of the 21st century. Black combined with gold, beige and white is a timeless colour pair that gives elegance and refinement to any arrangement. The carpets from Art Deco collection include the easy cleaning technology – Magic Home. Thanks to it, they are extremely easy to maintain.

MAGIC HOME
PRINT
COLLECTION

ABOUT COLLECTION

Magic Home Print Collection is a line of carpets that alludes with its design to old, hand-made woollen Oriental carpets. Thanks to the use of the printing technique, the carpets become a canvas, on which it is possible to recreate an intricate and rich in colours design of Oriental carpets. When designing these carpets, the effect of threadbare pattern was used, which gives our carpets a characteristic vintage look. The carpets from "Print" collection include the easy cleaning technology – Magic Home. Thanks to it, they are extremely easy to maintain.
